## Wax Recommendation

---

### Event

North American VASA, Timber Ridge Resort, Traverse City, MI. Saturday, Feb 8th. 50/27/12km Freestyle and Classic. 6km Freestyle for kids. 8am first wave starts.

### Forecast

Thursday Night- Snow showers, low around 5F. New snow accumulation less than 1 inch possible.  
Friday Day- Scattered flurries, mostly cloudy with a high near 14F.  
Friday Night- Mostly cloudy with a low around 8F.  
Saturday Day- 40% chance of snow in the morning, mostly cloudy with a high near 17F.

### Structure

Fine to Medium/Fine grinds with the .3mm Linear Broken V structure roller applied after final HF scraping and brushing is recommended.

### Glide Wax

CH Layer- CH6  
LF Layer- LF6  
HF Layer- HF6  
Cera F Layer- FC7 Cera F powder or FC7WS Cold Turbo Block  
Cera F Speed Enhancement Layer- FC6A Cold Rocket Spray. Apply over FC7 powder or block, spray on, let dry, lightly polish with felt cork.

### Kick Wax

Binder Layer- VG35, one layer, apply and iron in, smooth with cork, let cool.  
Kicking Layer- VR30, 3-5 layers, cork each layer smooth.  
Note- if extra kick is needed, try VR40, 1-2 thin layers corked smooth over VR30.
